

E61446

Spring arm for encoders

ENCODER SPRING ARM 170

1 operating range

Application

Design for encoder with clamp flange

Operating conditions

Ambient temperature [°C] -30...60

Mechanical data

Weight [g]	717.1
Installation instruction	can be mounted from both sides
Dimensions [mm]	230 x 65.9 x 75
Outer diameter [mm]	340
Material	aluminum anodized; Spring: stainless steel (1.4310 / 301)
Tightening torque [Nm]	4.3

E61446

Spring arm for encoders

ENCODER SPRING ARM 170

Max. angular displacement	[°]	45
Activation force	[N]	5...20

Remarks

Remarks	With scale
Pack quantity	1 pcs.
